

## Training Course:

Creating Impact by Knowledge Transfer  
for the Research Community

### AGENDA

**Tuesday 23 November 2017**

*Crowne Plaza Hotel – Le Palace*

*Rue Gineste 3, Brussels*

**Time: 13:00 – 18:00**

*12:30 Registration and Coffee*

**13:00 Welcome by AquaTT**

**13:10 COLUMBUS Background & Overview**

*An overview of the COLUMBUS project: objectives, activities and goals.*

**13:30 Session 1: How to Collect and Validate Knowledge within Research Projects**

- *What knowledge should be collected and how much detail?*
- *What processes could you use to ensure high quality collection of knowledge output descriptions?*
- *What repositories are available to store Knowledge Outputs to ensure accessibility?*
- **Short Practical Exercise – Knowledge Outputs and Quality Control**

*14:45 Coffee*

**15:00 Session 2: Options on how to Analyse Knowledge Outputs from Research Projects**

- *Why is analysis the most important stage?*
- *Who should be involved in analysis process?*
- *What processes could be used?*
- *What should be the outcomes of the analysis process?*
- **Short Practical Exercise – Knowledge Analysis**

**16:15 Session 3: How to Map a Pathway to Impact & Customised Knowledge Transfer Plans**

- *What is the eventual impact of knowledge?*
- *What is realistic within projects vs post projects?*
- *What is the difference between Target Users and End Users?*
- *How to map specific knowledge output pathways (KOPs) for units or clusters of knowledge*
- *How to identify Target Users and design customised Knowledge Transfer Plans (KTPs)*
- *How to measure impact of transfer and impact indicators for eventual impact?*
- **Short Practical Exercise – Knowledge Output Pathway Development**

**17:30 Concluding group discussion and Participant Debrief**

*18:00 Close of Meeting*
