

FP7 CSA September 2012 – August 2014

Improving the scientific knowledge base to support MSFD implementation

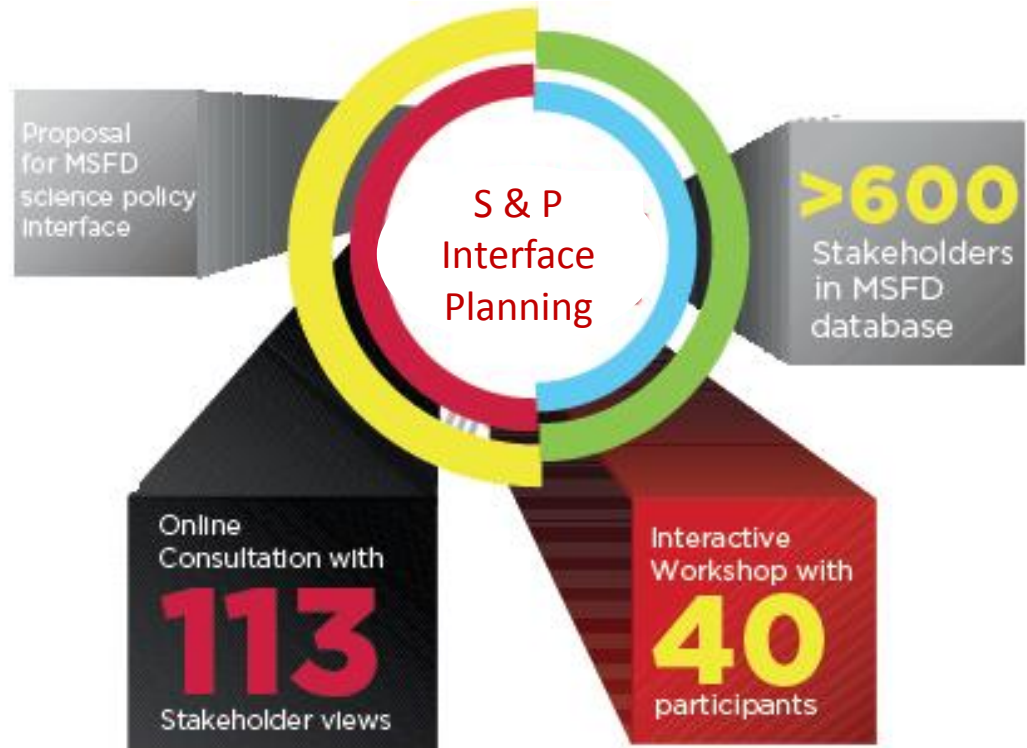

Existing knowledge

Key components

1. Harnessing knowledge
2. Scientific & Technical advice
3. Evaluation and synthesis
4. Knowledge brokerage

Resources to support MSFD implementation
Demonstration and recommendations on how to manage knowledge
to support policy needs
Architecture and components for MSFD Science & Policy Interface

EVERYTHING is AVAILABLE AT:

www.stagesproject.eu

Implementation by key actors/end users is crucial for the success

EC Services, Joint Research Centre & Marine Competence Centre
Member State Competent Authorities
Research Funding Organizations & Research Performing Organizations
Industry and Society

**Going ahead with the
knowledge transfer process
with wider scope & ambition**
